WEIGHING SORTED CAPS

NEEDED- Bathroom scale and a diaper box/Rubbermaid tote the group can handle.

Everyone gets a turn

1.Fill box with loose sorted cap and lid- no small baggies

2.Weigh person and empty box / write down total

3.Weigh person and box full of sorted cap / write down total

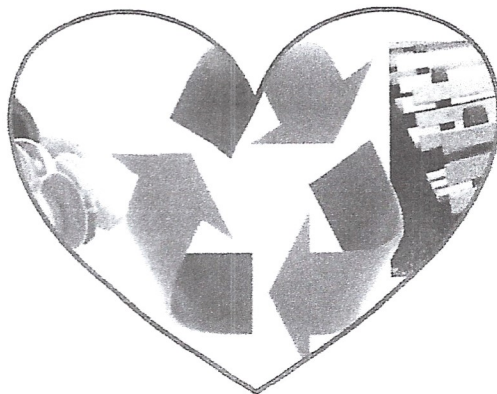

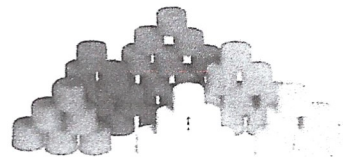

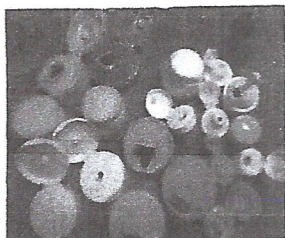

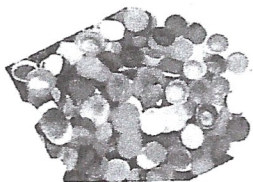

4.Dump loose cap from box into 55-gallon bag

5.Repeat until bag is full

6.Have the group total both columns and subtract- this teaches them net and gross weight

7.Write net weight on 55-gallon bag and repeat steps until goal weight is reached.

This saves on storage, so the group doesn't have to hold unnecessary caps that do not go with an order.
